

KEN COX · SPEAKER · AUTHOR · FILMMAKER · BUILDER

A 60-MINUTE KEYNOTE FOR THE AGE OF MACHINES

Keep Humanity Human.

Technology should give us more life—not become our life.

Ken connects a personal fight to the age of machines—and asks what remains ours to choose when technology can do almost everything.

THE SPINE: THE 12 ROUNDS

Every round is a choice: positivity, love, and progress.

THE 12 ROUNDS · ONE CONTROLLING QUESTION: WHAT REMAINS OURS TO CHOOSE?

01

The personal fight

Addiction, recovery, and the next choice when survival stops being abstract.

02

The universal fight

AI removes barriers—and can make dependence feel like relief.

03

The choice ahead

Build the future without giving away the life it was meant to improve.

The room leaves with:

- A practical line between assistance and authority.
- Shared language for responsibility, consent, capability, and connection.
- A next decision—not just inspiration about an abstract future.

Build the future. Keep the choice human.

Conferences · associations · leadership gatherings · education · civic rooms
